## REPORT

An entrepreneurial skill development program was organized on Saturday, February 24<sup>th</sup> 2024, at Sanjay Soni Carpet Grass Farming, Main Road Dharampura, Chhokra Nala, approximately 10 km away from the college for B.B.A students. This visit provided practical insights into the carpet farming industry and familiarized students with the operations and processing involved in carpet grass production.

They gained an understanding of the importance of quality control, sustainable practices, and skilled labor in producing high-quality carpets. Interacting with Sanjay Soni, who provided detailed information about the farms, allowed the students to understand the challenges and opportunities within the sector. 30 students visited this entrepreneurial skill development program with the Principal, HOD of the BBA department, and respective faculty members of the department.

Along with carpet grass production, Bonsai cultivation was also demonstrated and explained. Bonsai cultivation is an ancient art form that originated in China and was refined in Japan. It involves growing miniature trees in shallow containers and shaping them meticulously to resemble their full-sized counterparts. Patience and skill are crucial, as bonsai requires careful pruning, wiring, and nurturing to achieve their unique aesthetics and symbolic beauty.

Sanjay Soni explained the procedure in detail. Given sufficient moisture and warmth, carpet grass is an excellent low-maintenance option for a lawn. It thrives in shady landscapes with infertile soils and on slopes. Frequent mowing is necessary to maintain its neat appearance, as this plant produces new seed stalks every five days or so. But other than mowing, carpet grass requires minimal care—even fertilization is optional. There is a scope for this in the upcoming years.

At the end, refreshments were provided, and the students learned and enjoyed a lot.

# CONTENT

- About short detailed on report.
- About industry / Carpet farming.
- Questions which asked by Students.
- Group Observation.
- Aim of visiting and some moments with Students.
- Conclusion.

# INDUSTRY PROFILE

Firstly, as we know, Carpet grass is occasionally used as a lawn and pasture grass in warm areas, but its use generally indicates declining soil fertility, because it is a low-quality forage.

Grass Carpet is called artificial lawn or synthetic grass. Recently, we visited similar industry of Carpet which located in Raipur, Main road Dhampara, Behind agriculture hostel chakra Nala, at Sanjay Soni, Carpet farming.

Sanjay Soni started growing Carpet grass, Raipur in lockdown. (time of Covid-19). because of several losses in their business.

## REPORT ON Industrial Visit to CIPET RAIPUR

On 18th March'24 a group of 23 BBA students and faculties from our college visited the Central Institute of Plastic Engineering and Technology (CIPET) located in Bhanpuri, Raipur. The purpose of the visit was to gain practical and entrepreneurial insights into the plastic engineering and technology industry, observe the facilities of the institute and processing of products in CIPET. The students got engaged in interactive sessions with the experts discussing about manufacturing and marketing of plastic products.

The experience provided students with valuable knowledge and inspiration for entrepreneurial careers. Overall, the students got hands on learning experience with certificates fostering their understanding of entrepreneurship and business dynamics. The faculty members who supported the industrial visit was Dr. Ashok Kumar Jha , Neerja Tomar, Mrs. Shilpa Lunawat Taunk and Mrs. Priyanka Malu.

The visit was very well coordinated by CIPET official Mr. Sunil Kumar Jena and Mr. Devendra Sahu and their supporting staff.

## Annual Report

### Report Summary:

During the session 2023-24, the Committee is pleased to note that no grievances were reported by the students. This reflects a positive and inclusive environment within the institution, where all individuals feel safe, respected, and supported.

### Future Goals:

The Committee remains committed to ensuring the safety and well-being of women in the institution. It will continue its efforts to promote awareness, foster equality, and address concerns effectively, should they arise.

### Conclusion:

The absence of grievances during this period is a testament to the positive atmosphere at Vivekanand Mahavidyalaya. The Committee remains vigilant and dedicated to its responsibilities to uphold this standard.
